## Postgraduate Research Opportunities

The Department of Medicine, Division of Clinical Pharmacology, University of Stellenbosch, is offering fellowships for the following:

**MSc / PhD / Postdoctoral Opportunities:** Stellenbosch University supports a system for postgraduate research fellowships in line with its ideal for developing a stimulating research environment where new knowledge and skills can be developed, shared and applied to the benefit of the South African community.

**Research:** The main focus areas of this call are herb-drug interactions and medicinal chemistry of herbal products. The Division of Clinical Pharmacology has a well-resourced drug metabolism and pharmacokinetic (DMPK) laboratory, and experts in the areas aforementioned to train interested postgraduate students.

**Requirements:** Depending on the degree applied for, candidates with a BSc Honours / BTech or MSc / MTech or DTech / PhD in Chemistry, Biotechnology, Biochemistry, Pharmacy, Medicinal Chemistry, Pharmacology or in a related field will be considered. The applications will be subjected to a selection process; only those meeting the necessary criteria including academic achievements will be contacted depending on the availability of funding.

**Applications:** A cover letter with a full curriculum vitae and academic qualifications including all research outputs and a full motivation must be submitted to Dr. S.Naidoo, Department of Medicine, Division of Clinical Pharmacology (e-mail: [gasennaidoo@sun.ac.za](mailto:gasennaidoo@sun.ac.za)).

**Closing date for applications: 01 January 2014**
